Multi-point Touch Ultra-fine Writing

The ultra-thin stylus brings you incredibly smooth and natural writing experience just like using a traditional pen.

However, it outperforms the old-school writing by identifying two touch objects with different touch zones and configuring different colors for each of them. You can even change the color of either one without affecting the other!

- 50 -point touch 40-point writing
- Two color writing simultaneously
- Up to four-split screen
